

Provider Resources

Background

The Physician On Call Scheduling project is being undertaken to identify and implement an integrated solution that will support the needs of physicians to create and manage their on call schedule and enable Northern Health Administration to effectively process physician compensation related to MOCAP/On Call requirements. ByteBloc is identified as the integrated, physician on call eScheduling solution for Northern Health.

This document provides an opportunity for Northern Health providers to gain insight on using the ByteBloc eScheduling solution.

Basic provider steps for scheduling in ByteBloc

1. Logging in to ByteBloc: <https://ca.bytebloc.com/sk/Login> (Please save this link to your favorites; works best in Google Chrome)
2. [New to ByteBloc provider overview](#)
3. [Forgot password](#)
4. [Change password](#)
5. [Profile](#)
6. [Verifying a mobile number \(text messaging\)](#)
7. [Calendar feeds](#)
8. [Swapping a shift](#)
